Morocco - Mar 2020 / May 2021

Managed international client portfolio and export/import files in compliance with international trade regulations

Coordinated with foreign partners to facilitate cross-border operations and ensure effective communication

Projects

CTF – TryHackMe & HackTheBox – Cybersecurity

Personal - Ongoing

Solving challenges covering penetration testing, privilege escalation and vulnerability exploitation

Minishell & ft_transcendence – Software Engineering

42 Cursus - 2026

Unix shell with process & signal handling; full-stack SPA with real-time Pong, OAuth2, 2FA, WebSocket chat and Docker deployment

Webserve & NetPractice – Networking & Infrastructure

42 Cursus - 2025

Built an HTTP/1.1 server in C++ with non-blocking sockets and concurrent connections; configured TCP/IP architectures across multiple subnets

Personal Portfolio & VTI Showcase Website – Web Development – React, HTML/CSS

Personal - 2025

Designed and deployed a personal portfolio and a professional showcase website for VTI using React and HTML/CSS

Philosophers – System Programming

42 Cursus - 2025

Implemented multithreading with mutex synchronization to prevent deadlocks

Pipex – System Programming

42 Cursus - 2024

Reproduced Unix pipe behavior with controlled inter-process communication

Born2beRoot – System Administration & Security

42 Cursus - 2023

Set up a secure Linux server (Debian) with strict partitioning, SSH hardening, firewall rules and sudo policies

Skills

Programming	C, C++, Python, Bash, SQL, JavaScript, PHP
Tools & Frameworks	React, Django, PostgreSQL, WebSockets, Git, Docker, Figma
Cybersecurity	TCP/IP, Network configuration, Memory management, Multithreading, Pen testing
Soft Skills	Adaptability, Autonomy, Problem-solving, Teamwork, Communication, Business Acumen

Languages

French	Native
Arabic	Native
English	Fluent
Spanish	Intermediate
Italian	Beginner

Hobbies

Photography	Passionate about capturing the world through an artistic lens — from misty landscapes to abstract textures — and bringing images to life through post-processing and retouching
Pastry	Love experimenting new cooking style, from elaborate layer cakes and delicate tarts to savory dishes blending French, Moroccan and international flavors
